Scottsdale (Phoenix), Arizona, USA

Preliminary program details and on-line registration for all programs is now available on IMI's web site www.imiconf.com.

“IMI is currently accepting presentation proposals for a limited number of presentation slots at each conference. **Anyone interested in participating as a speaker in one of**

the above programs should submit their proposed presentation title and outline via email to al@imiconf.com as soon as possible,” says IMI President Al Keene.

Participate in the Excitement of the Digital Revolution!

Keene emphasizes, “While conventional printing declines, digital printing is expanding by taking advantage of features such as personalization, on-demand production, inventory & distribution cost savings, previously impossible applications, digital manufacturing applications, improved output options and other opportunities to end users as the transition from an analog to digital world accelerates – which is being reflected in the growth of digital printing applications and opportunities. **IMI's May 2016 Conferences** provide programs and formats to obtain a timely update and understanding of key digital printing technologies, markets and applications which are essential to successful product development, business strategy and market penetration. Companies must gain the knowledge, make the contacts and develop their strategies now to be in a position to prosper as the digital applications expand.”

Conference registrants can also participate in IMI's unique **Suppliers' Forum** sessions and give a 5-minute presentation covering their technology, products, services, requirements, etc. as well as having a **complimentary display** in the conference display areas. Contact Al Keene at IMI al@imiconf.com for additional information regarding these opportunities.

According to Keene, “As always, IMI conference programs are designed to enable attendees to obtain the latest technical, market and application information while allowing time to network with other attendees in a time and cost efficient manner. Attendance at IMI conferences enables attendees to meet with the digital printing industry's leading experts in a single location over a short period of time thus maximizing information transfer efficiency and minimizing travel and time expenses.”

About Information Management Institute, Inc.

Information Management Institute, Inc. (IMI) sponsors conferences world-wide to assist in understanding technology developments, markets and applications requirements. IMI conferences offer attendees a unique opportunity for leading hardware, technology development, consumables, software and user companies to network and develop a more comprehensive understanding of current as well as future developments impacting successful product implementations, market entry/expansion and technology utilization. Since 1990, IMI has held over 500 programs attended by well over 25,000 technical, marketing and management personnel from companies around the world.

IMI conference programs are designed to enable attendees to obtain the latest technical, market and application information while allowing time to network with other attendees in a time and cost efficient manner. Attendance at an IMI conference enables attendees to meet with an industry's leading experts in a single location over a short period of time thus maximizing information transfer efficiency and minimizing travel and time expenses.
