## **Inkjet Conference 2023 & Inkjet Innovation Academy**

Carrabassett Valley, Maine – IMI President Al Keene says, "IMI's **Inkjet Conference 2023**, the inkjet industry's annual flagship strategic conference, is being held May 18-19, 2023 at The Florida Hotel & Conference Center in Orlando, Florida. Trusted as a primary source of high value information by the inkjet industry's executive and technology innovators for 30+ years; the program addresses the most recent innovations, trends, and issues critical to inkjet's applications expansion and market growth. With inkjet's rapid pace of technology developments, applications expansion, and increasing market potential - it is all the more important than ever for industry participants to keep up to date thus enabling maximization of their success and profitability in the inkjet industry.

IMI's **Inkjet Conference 2023** along with learning opportunities at the **Inkjet Innovation Academy's Inkjet Academy** course will provide improved understanding of ongoing developments and the ability to capitalize on the business opportunities being generated by inkjet and related technologies' advancements.

### About IMI

IMI sponsors conferences and courses world-wide to assist in understanding technology developments, markets and applications requirements. IMI conferences and courses offer unique opportunities for leading hardware, technology development, consumables, software and user companies to learn, network, and develop a comprehensive understanding of current as well as future developments impacting successful product implementations, market entry/expansion, and technology utilization.

Since 1990, IMI has held over 600 programs attended by well over 25,000 technical, marketing and management personnel from companies around the world.

IMI programs are designed to enable attendees to obtain the latest technical, market and application information while allowing time to network with other attendees in a time and cost-efficient manner. Attendance at an IMI program enables attendees to meet with an industry's leading experts in a single location over a short period of time thus maximizing information transfer efficiency and minimizing travel and time expenses.

Details on all of IMI activities can be found on our web site [www.imiconf.com](http://www.imiconf.com)
